

CURRICULUM VITAE

Aniket Bhalkikar

Correspondence Address: Room No. 3,
Department of Civil Engineering,
CHRIST (Deemed to be University),
Kengeri Campus, Mysore Road
Bengaluru, Karnataka – 560083 INDIA
Email id: aniketnnb@gmail.com,
aniket.nitin@christuniversity.in
Mobile: +91-9985004656

Date of Birth: 23rd Aug 1989
Religion: Hindu
Nationality: Indian
Languages Known: Marathi,
Hindi, English, Telugu
Category: General (Open)

Career Objective

To excel in the field of design and analysis of buildings as well as safety assessment of existing buildings and propagate the same through research.

Research Interests

Seismic Safety Assessment of Existing Buildings, Assessment of Weightage of Structural Parameters Globally, Rapid Visual Survey (RVS), Risk Assessment of Region, Conditional Monitoring, Structural Health Monitoring (SHM), Applications of AI and ML.

Educational Credentials

Examination	College/ School	Year of Passing	Percentage/ CGPA
Doctoral Degree	Ph.D. – Civil Engineering (Thesis Defended: 26 th March 2022)		
	International Institute of Information Technology, Hyderabad	2014-2022	8.25 CGPA
Master’s Degree (Post-Graduation)	M.Tech. – Computer Aided Structural Engineering (CASE)		
	International Institute of Information Technology, Hyderabad	2012-2014	8.11 CGPA
Graduate Aptitude Test in Engineering	GATE – 2012: Reg. No – CE 2041051 / Marks: 35.33 / Score: 338 / AIR: 4256		
Bachelor’s Degree (Graduation)	B.E. – Civil Engineering		
	Marathwada Institute of Technology, Aurangabad (Dr. BAMU, Ch. Sambhajinagar (then Aurangabad))	2007-2011	66.53 %
Higher Secondary Certificate (12 th Class)	S.B.E.S. College of Science, Ch. Sambhajinagar (then Aurangabad)	2006-2007	82.67 %
Secondary School Certificate (10 th Class)	Saraswati Bhuvan High School, Ch. Sambhajinagar (then Aurangabad)	2004-2005	78.53 %

Publications

(Journals = 7; Technical Reports = 2; Conferences = 8)

Journal Articles:

7. Lalnunfeli, and **Aniket Bhalkikar**, “Empirical Expression for the Time Period of Bare Frame RC Structures”, 3rd International Conference on Construction Materials and Structures (3rd ICCMS), 2025, Tirupati, India.
8. Pulkit Velani, **Aniket Bhalkikar**, Hima Dasari, and Ramancharla Pradeep Kumar, “Need for Structural Health Monitoring (SHM) Code in India”, 4th International Symposium on One Health, One World (OHOW), 2025, Roorkee, India.

Research Experience

1. **Doctoral Student**, International Institute of Information Technology Hyderabad, Earthquake Engineering Research Centre, August 2014 to August 2021
 - Researched various available rapid visual survey methods in India and the major drawbacks in their uses.
 - The research also involved proposing new hinge state coefficients for damage assessment of reinforced concrete buildings and deriving relative weights of selected irregularities on the overall vulnerability of the structure.
2. **Research Assistant**, International Institute of Information Technology Hyderabad, Earthquake Engineering Research Centre, August 2014 to August 2021.
 - Conducted rapid visual survey of buildings in nearly 10 different cities and detailed survey of buildings in 2 cities in India.
 - Performed a statistical analysis on the building data collected during rapid visual survey and performance assessment of buildings using data collected during detailed survey.
 - Worked on the following projects as a team member:
 - **Project title:** Developing Earthquake Disaster Risk Indexing (EDRI) of important cities in seismic zones IV and V.
 - **Project title:** Development of risk index maps for Lucknow and Dehradun city.
 - **Project title:** Preparing a primer on Rapid Visual Screening (RVS) methods consolidating earthquake safety assessment efforts in India.
 - **Project title:** Design check and analysis of Multi-storey commercial building.
 - **Project title:** Development of Ward Level Disaster Management Plan for Vijayawada and Vishakhapatnam City in Andhra Pradesh.
3. **Post Graduate Student**, International Institute of Information Technology Hyderabad, July 2012 to July 2014
 - Researched the interaction between soil and concrete structure and how it affects the performance of cantilever reinforced concrete retaining wall.

Academic Experience

1. Assistant Professor at CHRIST (Deemed to be University), Bengaluru

- Taught undergraduate-level and post graduate-level courses to the students of civil engineering as well as student of architecture.
 - **Civil Engineering courses**
 - Design of Steel Structures (Monsoon – 2022, Monsoon – 2023, Spring – 2025)
 - Design of High Rise Structures (Monsoon – 2024, Monsoon – 2025)
 - Basics of Civil Engineering and Engineering Mechanics (Spring – 2023, Spring – 2024)
 - **Architecture courses**
 - Logic of Structures – Masonry (Monsoon – 2022)
 - Logic of Structures – Frames (Spring – 2022, Spring – 2023, Spring – 2025)
 - Logic of Structures – Advanced (Monsoon – 2024)
 - **Courses designed as Value Added Course for post graduate students**
 - Application of MATLAB Programming in Structural Engineering (Monsoon – 2022)
- Structural Dynamics Lab in-charge. Handled and demonstrated experiments to post-graduate and undergraduate students on Electrodynamics *Shake Table*.
- Worked as coordinator of NAAC Criteria II and NBA Criteria II teaching, learning and evaluation.
- Provided mentorship of final year undergraduate as well as post-graduate students in their final year projects.
- Participated as organizing committee member for various events such as seminars, international conference, etc.

2. Teaching Assistant at International Institute of Information Technology, Hyderabad

- Graded assignments, quizzes, mid-term exams and projects for undergraduate as well as post graduate level courses.
 - **Undergraduate level courses**
 - Mechanics of Materials (Monsoon – 2014)
 - Design of Reinforced Concrete Structures (Spring – 2015)
 - Building Construction and Engineering (Monsoon – 2015)
 - Disaster Management (Spring – 2020)
 - **Post graduate level courses**
 - Design of Special Structures (Monsoon – 2016)
 - Earthquake Engineering (Spring – 2018)
 - Computer-Aided Civil Engineering Workshop (Monsoon – 2018, 2019).

3. Courses offered at International Institute of Information Technology, Hyderabad

- Taught undergraduate as well as postgraduate-level courses.
 - **Undergraduate level courses**
 - Engineering Drawing and Sketching (Spring – 2016, 2017)
 - Estimation and Costing (Spring – 2019)
 - **Postgraduate-level courses**
 - Computer-Aided Civil Engineering Workshop (Monsoon – 2017)

4. **Presentations**, International Institute of Information Technology, Hyderabad

- Delivered presentations and taught design related topics such as *Design of Reinforced Concrete Structure* in several student short courses on *Earthquake Resistant Design of Buildings* conducted in every year from 2016 to 2019.

Consultancy and Industry Engagement

1. **Design and detailing of three RC Retaining Walls and its integration with an existing structure** at IRIDM Bangalore Karnataka.
Client: Jagarlamudi Nageswara Rao Constructions, Bangalore
2. **Design and detailing of G+2 RC building for CCTV and RPF Rest Rooms** at Mandya Railway station, Mandya Karnataka.
Client: Jagarlamudi Nageswara Rao Constructions, Bangalore
3. **Instrumentation of Railway Over-bridge (ROB) for conditional health monitoring** near Hassan, Hassan-Bangalore Section, Mysuru Division, South-Western Railway.
Client: MANTIS Infra Solutions Pvt. Ltd. Hyderabad

Invited Talks

1. As a *Prime Resource Person* in a two-week faculty development program on “Hands-On Practices in Civil Engineering Computations” from August 22, 2022 to September 3, 2022 organized by Department of Civil Engineering, Vidhya Jyothi Institute of Technology (VJIT) Hyderabad in association with Indian Concrete Institute (ICI) Knowledge Centre.

Professional Experience

1. Worked as a trainee engineer in Hindustan Construction Company Limited (HCC Ltd.) from June 2010 to August 2010 on the construction site of an underground cavern at Visakhapatnam (Andhra Pradesh, India).

Additional Responsibilities

1. During the Ph.D., was involved in many additional activities:
 - Organized a one day workshop on Structural Health Monitoring: From Research to Reality on 7 March 2025 at CHRIST University Bangalore.
 - Organizing committee member for AI Applications in Engineering and Technology organized (AIAET-2024) organized on 6-7 March 2024, at CHRIST University Bangalore.
 - Organized a one day symposium on Earthquake Preparedness in India on 31 January 2024 at CHRIST University Bangalore.
 - Organizing committee member for several student short courses on *Earthquake Resistant Design of Buildings* for external undergraduate students.
 - Organizing committee member for International Symposium on New Technologies for Urban Safety of Mega Cities in Asia (USMCA) organized on 12-14 December 2018, Hyderabad.

Computer Skills

1. **Programming languages:** MATLAB and Python
2. **Technical software:** SAP2000, ETABS, AutoCAD, QGIS
3. **Professional tools:** MS Excel
4. Made many interactive graphical user interfaces using MATLAB programming language to solve structural engineering related problems.
5. Wrote a program in Excel VBA using SAP2000 API, which automates the repetitive process required for modeling and analysis in SAP2000.

Professional Memberships

1. Association of Consulting Civil Engineers (ACCE) India, Student Member, 2017-2018
2. Indian Association of Structural Engineers (IASE), Student Member, 2020-2021
3. Earthquake Engineering Research Institute (EERI), Student Member, 2019-2022
4. Indian Society of Earthquake Technology (ISET), Annual Member, 2024-Present
